

Reminder: Tickets on sale – Inaugural Drone and Technology Day

A reminder that tickets for the IREC, Deakin University and Murrumbidgee Landcare Drone and Technology Day are now on sale.

The one-day event, to be held at the Yoogali Club, Griffith on Thursday, 29 June 2017, will feature sessions focusing on cutting edge technologies with real-world case studies and applications, across crops and issues, and investigate how they can impact on improving productivity – and returns.

Tickets can be purchased online at <http://irec.org.au/events/>. Pricing includes:

- IREC member - \$35
- Non member - \$70
- Student - \$25
- School group \$10

The event's keynote speaker, John Sulik, is a remote sensing applications specialist. Hailing from Seattle, USA, John will travel to the Riverina to discuss practical ways to use drones on farm. Together with Dr John Hornbuckle (Deakin University), he will also present case studies that relate to disease, weed, water and nitrogen management in a variety of crops.

Cutting edge technologies being developed at Deakin University will also be on display with the opportunity for hands-on interaction. These technologies include Virtual Reality, Robotics/Haptics and Lab on a Chip.

Further information and the program flyer is available at <http://irec.org.au/event/deakin-drone-technology-day/>. Email Hayley on irec@irec.org.au or phone the IREC office on (02) 6963 0936.

IREC would like to thank the following sponsors for their generous support of the event:

- Latevo
- Precision Hawk / Ruralco
- Southern Cotton
- Rise Above Custom Drone Solutions
- MicaSense
- Yenda Producers
- MicaSense
- Griffith Camera House
- National Drones
