

VOTE **1**

GRANT DELVES

FOR
STRONG, HONEST AND FAIR
REPRESENTATION ON THE MURRUMBIDGEE
IRRIGATION BOARD

INTRODUCING GRANT DELVES

- My family has been farming in this region for over 100 years and I have been growing wine-grapes, prunes and citrus for the past 30 years. I also have a degree in Science and have worked for DPI, NSW.
- My leadership roles have included; chairman of The Australian Prune Industry Association, president of the International Prune Association, member of the Ministerial Advisory committee for Murrumbidgee College (Yanco), president of the Dorothy Waide Childcare Centre, president of the Hanwood Public School P&C Association and co-chair of the Hanwood Centenary Committee.

I understand the change to online voting this year will be challenging for many, but I urge you to persevere and use your vote for active representation on the board of MI.

- For sixteen years we have benefitted from Tony (Tank) Sergi's grass-roots support. With his departure, it is now more important than ever that high security shareholders elect another strong representative to the board. I have the commitment and experience to take on this role.
- I believe I am the right person to represent high security shareholders because I have a genuine passion for this region and its future. I can see the 'big picture', set goals and chart a clear path to those goals.
- Every day, farmers deal with a variety of worries and hurdles. Water supply should not be one of them. It should be seamless, cost-effective and worry-free, so farmers can do what they do best- farm! We need to build closer relationships between MI, its customers and peak industry bodies.
- My farming history, along with industry and community leadership roles, show that I have the knowledge and experience necessary to promise strong, honest and fair representation for irrigators. When I commit to something, I will give it my all.

**Vote 1 GRANT DELVES
and number every box for it to
be a valid vote.**
