

**National Renewables in Agriculture™**  
CONFERENCE AND EXPO

**14<sup>TH</sup> NOVEMBER 2019**  
9am - 4.30pm / Networking drinks 4.30 - 6pm

The Range Function Centre  
308 Copland Street Wagga Wagga

**On-farm renewables are a valuable opportunity for farmers to cut costs and emissions.**

The Expo offers farmers the chance to speak to credible renewable energy suppliers about opportunities for their property.

Post Conference, network with a glass of red or white produced by SeeSaw Winery using solar.

**DON'T MISS THIS FIRST TIME EVENT. PLACES LIMITED. REGISTER ASAP.**

This unique event invites you to find out everything you need to know about renewables, including;

- > **What options are right for me?**
- > **What steps should I take?**
- > **Who do I work with to make it happen?**

Hear from farmers successfully using renewables, why they did it, and what they've learnt. Industry experts will discuss:

- > **Feasibility and working out the business case for renewables.**
- > **Understanding grid connections.**
- > **What's on the horizon for energy and agriculture.**

THINKING AHEAD

Register now for the Renewables in Agriculture Conference and Expo – Wagga Wagga 14 November

On-farm renewables present a huge opportunity for farmers to cut costs and emissions. The inaugural National Renewables in Agriculture Conference and Expo will be held on 14 November in Wagga. This exciting event brings together farmers, renewables experts, and agribusinesses to share expertise and lived experience with the use of on-farm renewables.

Breakout sessions will also unpack the details behind what makes a competitive business case for different sectors.

The event includes:

- Case studies - what have other farmers done to reduce energy costs?
- What are the steps to developing a business case for renewables on your farm?
- What is the process for connecting to the grid and how to make the most of your retail supplier contract?
- When is the right time to invest in battery storage?

The Expo offers attendees the opportunity to speak to credible renewable energy suppliers about solutions available for their needs.

### Who should attend?

Farmers, agricultural or energy consultants, peak bodies, agribusiness, Government representatives and agriculture students.

**Early bird tickets on sale now for \$75.00 until 30 September.**
