26.3 Certain Internal Permanent Transfers are prohibited by the Surplus Water Rules.

27. Deadlines

27.1 Applications may be submitted to the Company at any time.

28. Determination

28.1 The Company may approve or refuse (at its discretion) each Application, provided that the Company must not unreasonably restrict the Internal Permanent Transfer of Delivery Entitlements.¹⁹ Approval may be given subject to fulfilment of specific conditions.

28.2 To the maximum extent permitted by law, the Company may, at its discretion, refuse an Application, including:

- (1) where the Application is incomplete or not in accordance with these Rules;
- (2) where the Application is not accompanied by payment of the relevant Charge applicable to the Application;
- (3) where there are outstanding Charges payable by an Applicant to the Company and arrangements satisfactory to the Company have not been made to settle those outstanding Charges;
- (4) where there is insufficient Water Allocation in the Water Allocation Account of the transferor named in the Application to carry out an Annual Transfer under rule 29.2(1), or that Annual Transfer would not comply with Part B;
- (5) where an Applicant has not fully repaid water debts or water borrowings;
- (6) where a person who holds a legal or equitable interest in the Water Entitlements, Delivery Entitlements or Shares the subject of the Application, has refused to give approval to the Permanent Transfer;
- (7) where the relevant Applicant does not provide the security required under rule 30;
- (8) where an Applicant applies for Corresponding Shares and the Company does not agree to issue them;
- (9) where an Applicant applies for Rights of Access and the Company does not agree to issue them;
- (10) where a requirement of a law (including a requirement for approval by any relevant Government Agency) cannot be satisfied;
- (11) where the Permanent Transfer would, in the reasonable opinion of the Company, contravene the Company's obligations under a Legal Requirement; or
- (12) where an Applicant applies for an Internal Permanent Transfer of Delivery Entitlements and the Company, acting reasonably, restricts the transfer, having taken into account factors which include the following:
 - (a) overall capacity in the Company's irrigation network;

¹⁹ Section 12.28 of the Water Trading Rules.
Transfer Rules – 1 July 2023 to 30 June 2024

- (b) capacity in the parts of the Company's irrigation network to which water would potentially be delivered under the transferred Delivery Entitlements;
- (c) reconfiguration or decommissioning work in the parts of the Company's irrigation network to which water would potentially be delivered under the transferred Delivery Entitlements;
- (d) connectivity between specific parts of the Company's irrigation network relevant to the proposed transfer;
- (e) payment of fees or charges for access, changing access, or terminating or surrendering access, to the Company's irrigation network;
- (f) the number of Delivery Entitlements reasonably required to irrigate a person's Landholding for both current and expected future water use;
- (g) the net costs to the Company of assessing and giving effect to the transfer of the Delivery Entitlements;
- (h) the provision of reasonable security to the Company for the payment of fees or charges for access to the Company's irrigation network by the person acquiring the Delivery Entitlements;
- (i) whether the proposed transfer would result in the Delivery Entitlements being held by a person who does not own or occupy land in the area serviced by the Company;²⁰

28.3 If the Company decides to restrict an Internal Permanent Transfer of Delivery Entitlements within its irrigation network, it must notify each party to the transfer in writing of the decision and the reasons for the decision (including findings on material questions of fact and references to the evidence or other material on which those findings were based) as soon as practicable, but in any case within 30 days, after the decision is made.²¹

29. Implementation

29.1 An approved Permanent Transfer takes effect:

- (1) in the case of an Internal Permanent Transfer, on the date on which it is registered by the Company; and
- (2) in the case of an External Permanent Transfer In, on the date on which it is registered by the Company after it has been registered by the relevant Government Agencies.

29.2 An approved Internal Permanent Transfer of Water Entitlements or Delivery Entitlements takes effect as follows:

- (1) the rights to any Annual Allocations made in respect of the Water Entitlements the subject of the Internal Permanent Transfer that are made prior to approval of the Internal Permanent Transfer will remain with the transferor, unless the parties indicate otherwise;
- (2) the rights to any Carryover Water connected to the Water Entitlements the subject of an approved Internal Permanent Transfer will remain with the transferor;

²⁰ Sections 12.28 and 12.29 of the Water Trading Rules. This does not preclude the Company from taking into account factors of the types specified in rules 28.2(1)-(11) or other factors. For example, the Company may take into account whether an Applicant who is the proposed transferee of Delivery Entitlements has installed a Meter to measure the water delivered from the Company's Works.

²¹ Section 12.30 of the Water Trading Rules.
Transfer Rules – 1 July 2023 to 30 June 2024

- (3) the Water Entitlements or Delivery Entitlements being transferred by the transferor will be terminated; and
- (4) the Water Entitlements or Delivery Entitlements to be held by the transferee will be issued,

on and subject to the terms and conditions of the relevant Water Entitlements Contracts and Water Delivery Contracts.

29.3 Subject to rule 29.2(1), Internal Permanent Transfers do not affect Water Allocation already credited to a Water Allocation Account before the Internal Permanent Transfer takes effect. Part B applies to transfers of Water Allocation.

29.4 In an approved External Permanent Transfer In, the Company:

- (1) must issue Water Entitlements to the relevant Applicant;
- (2) may, at its discretion, agree to issue Corresponding Shares to the relevant Applicant if the relevant Applicant applies for Corresponding Shares; and
- (3) may, at its discretion, agree to issue Rights of Access to the relevant Applicant if the relevant Applicant applies for Rights of Access.

30. Security

30.1 Where an Applicant applies for a Permanent Transfer and will, after the Permanent Transfer, either:

- (1) hold a Right of Access but no Water Entitlements; or
- (2) hold at least five times more Delivery Entitlements than Water Entitlements,

the Company may, to the maximum extent permitted by law, require security to be given by the Applicant for the payment of Charges for access to the Company's Works for the delivery of water to the Applicant after the Permanent Transfer.

30.2 The Company must not require security to be given by the Applicant under rule 30.1 in an amount that, at the time the security is given:

- (1) exceeds the amount that, under Part 10 of the *Water Charge Rules 2010* (Cth), would be payable to the Company for the termination of the Rights of Access held by the Applicant at that time; (this will generally be the amount of the termination fee that would be payable to the Company for the termination of all of the Rights of Access held by the Applicant at that time); or
- (2) if there is no such amount, exceeds the amount calculated in accordance with Part 10 of the *Water Charge Rules 2010* (Cth) payable to the Company in respect of the financial year in which the security is given.

30.3 The Company may refuse to accept security required under rule 30.1 unless the Applicant offers it in one or more of the following forms:

- (1) a guarantee given by an authorised deposit-taking institution within the meaning of the *Banking Act 1959* (Cth) (**Bank Guarantee**);
- (2) a deposit lodged with the Company (**Deposit**); or
- (3) any other form of security agreed upon by the Company and the Applicant.

30.4 If the security given by the Applicant is a Bank Guarantee, the Bank Guarantee must:

- (1) be unconditional; and
 - (2) not have an expiry date, except with the Company's consent.
- 30.5 If the security given by the Applicant is a Deposit, the Company must (and the Applicant authorises the Company to) deposit the Deposit in an interest-bearing cash management account.
- 30.6 The Company must pay interest earned on the Deposit to the Applicant periodically as determined by the Company.
- 30.7 For the purposes of this rule 30, a reference to interest means interest actually earned on the Deposit less all duty, bank charges and any other money properly payable in respect of the investment of the Deposit.
- 30.8 The Company may apply the security given by the Applicant in accordance with rule 30.1 to any outstanding Charges if they remain unpaid for 14 days after they fall due or upon termination of the Applicant's Rights of Access or Water Delivery Contract.
- 30.9 Subject to rule 30.8, the Company must return any surplus of the security after deduction under rule 30.8 to the Applicant after 14 days have elapsed from the termination of the Applicant's Rights of Access or Water Delivery Contract.

the person may give notice in writing to the Company that the person seeks a formal negotiation of the matter.³⁴

36. Formal negotiation

36.1 A formal negotiation for the purposes of rules 34.3 and 35.4 is a genuine attempt by the Company to reach agreement with the person, within 30 Business Days after the giving of the notice under rule 34.3 or 35.4, as to the details of the Irrigation Right or the terms and conditions of the right to have water delivered as the case requires. 39. Implementation

- 39.1 An approved Transformation takes effect on the date on which it is registered by the Company after it has been registered by the relevant Government Agencies.
- 39.2 In an approved Transformation:
- (1) the Company must cancel the relevant Irrigation Rights of the Applicant; and
 - (2) the Applicant must forfeit an equal number of Corresponding Shares, unless the Applicant holds, by number, more Water Entitlements than Corresponding Shares.
- 39.3 Transformation does not affect Water Allocation already credited to a Water Allocation Account before the Transformation takes effect. Part B applies to transfers of Water Allocation.

40. Security

- 40.1 Where an Applicant applies for Transformation and will, after Transformation, either:
- (1) have a right to have water delivered by the Company but no Irrigation Rights; or
 - (2) have a right to have a volume of water delivered by the Company in respect of the current financial year (disregarding any constraints on delivery) which is more than five times the volume of water that the Applicant is entitled to receive in respect of that year under the Irrigation Rights held by the Applicant,⁵³
- the Company may, to the maximum extent permitted by law, require security to be given by the Applicant for the payment of Charges for access to the Company's Works for the delivery of water to the Applicant after Transformation.⁵⁴ The Company may also require security to be given by the Applicant for the payment of Charges for access to the Company's Works for the delivery of water to the Applicant after Transformation in any other circumstance permitted by rule 10 of the Water Market Rules.
- 40.2 The Company must not require security to be given by the Applicant under rule 40.1 in an amount that, at the time the security is given:

 - (2) if there is no such amount, exceeds the amount calculated in accordance with Part 10 of the *Water Charge Rules 2010* (Cth) payable to the Company in respect of the financial year in which the security is given.⁵⁵
- 40.3 The Company must not refuse to accept security required under rule 40.1 by reason only of the form in which it is offered if an Applicant offers it in one or more of the following forms:
- (1) a charge over an Irrigation Right that the Applicant continues to hold;

 - (5) a deposit lodged with the Company (**Deposit**); or
 - (6) any other form of security agreed upon by the Company and the Applicant.⁵⁶
- 40.4 If the security given by the Applicant is a Bank Guarantee, the Bank Guarantee must:

 - (2) not have an expiry date, except with the Company's consent.
- 40.5 If the security given by the Applicant is a Deposit, the Company must (and the Applicant authorises the Company to) deposit the Deposit in an interest-bearing cash management account.
- 40.6 The Company must pay interest earned on the Deposit to the Applicant periodically as determined by the Company.
- 40.7 For the purposes of this rule 40, a reference to interest means interest actually earned on the Deposit less all duty, bank charges and any other money properly payable in respect of the investment of the Deposit.
- 40.8 The Company may apply the security given by the Applicant in accordance with rule 40.1 to any outstanding Charges if they remain unpaid for 14 days after they fall due or upon termination of the Applicant's Rights of Access or Water Delivery Contract.
- 40.9 Subject to rule 40.8, the Company must return any surplus of the security after deduction under rule 40.8 to the Applicant after 14 days have elapsed from the termination of the Applicant's Rights of Access or Water Delivery Contract.

41. Delivery

- 41.1 The Company will not, as a condition of approving an Application, terminate, or require the Applicant to terminate, any Rights of Access.⁵⁷

- (2) any of the relevant Water Allocation remains in a Water Allocation Account at the end of the Water Year,

it cannot be carried over to the next Water Year and it will be cancelled without compensation at the end of the Water Year, except to the extent that the Customer is otherwise permitted to carry it over in accordance with the Documents. To avoid cancellation, the Customer must complete an External Annual Transfer Out in respect of the relevant Water Allocation before the end of the Water Year.

42. Tagging

- 42.1 Where the person who is to hold the Access Licence (or interstate equivalent) obtained as a result of the Transformation obtains approval to nominate a water supply work (as defined in the Act) which is not in the same NSW water tagging zone (as defined in subsection 71W of the Act) as the Access Licence held by the Company whose share component was reduced by the Transformation, the person's Access Licence (or interstate equivalent) will be tagged. This means that the Access Licence (or interstate equivalent) will retain the characteristics of Access Licences that are subject to the Water Sharing Plan, rather than being converted into any other form.⁵⁸
