

TRACEY VALENZISI

Dear Shareholders

As shareholders, you have an important role in shaping the future direction of our company. I encourage you to participate in the election of the A Class Director and have your voice heard.

I am seeking your support to continue building on the progress established during my time on the Board. While much has been achieved, there is still important work ahead. I remain committed to applying my experience and working collaboratively to help deliver sustainable, long-term value for our communities and shareholders.

Keeping informed of water reviews, policy developments and regulatory changes has been a focus during my time on the Board. I have worked closely with neighbouring irrigation organisations to advocate for responsible stakeholder engagement and practical, evidence-based water policy outcomes, at the government level. My primary objective is the growth of our region through a strong irrigation industry, responsible leadership, and effective long-term planning.

As an irrigator and citrus grower, my husband Joe and I have over 40 years of horticultural experience and a deep connection to the MIA. I take a hands-on approach to our farming enterprise, working alongside my husband in the day-to-day operation of the farm.

This provides me with an understanding of the challenges, opportunities and the decisions facing irrigators.

I hold a Bachelor of Business degree and am a Graduate of the Australian Institute of Company Directors (GAICD). Together with my board experience, these qualifications enhance my understanding of governance, risk management, strategic planning and organisational accountability.

My career across business management, finance, administration, regional and national tourism, together with eight years as a Local Government Councillor, developed a commitment to engagement, effective communication and building lasting stakeholder relationships. I work with Tocal College in the development and delivery of training programs designed to build the skills, knowledge and confidence of emerging leaders, supporting the next generation of agricultural professionals and future board members.

It has been a privilege to serve Murrumbidgee Irrigation shareholders and if re-elected, I will continue to advocate for the stability of our region and decision-making that benefits shareholders, customers and communities.

I would value your support and vote in the A Class election.
