

POSITION SUMMARY

SENIOR HYDRAULIC ENGINEER

1. Salary

An attractive salary, based on the applicant's level of experience and competency.

2. Other Benefits

To support MI in being a great place to work, many non-salary benefits are provided, including: access to salary packaging (superannuation, novated lease and remote area housing); uniforms; life insurance cover; and several health and wellness programs.

3. Leave

- (i) Annual Leave 4 weeks per annum (with option to purchase an additional week)
- (ii) Personal Leave 10 days per annum

4. Medical

Medical examinations, including functional assessments, personality assessments and drug and alcohol testing, may be conducted at the Company's expense. Applicants will be required to provide pre-medical details.

5. Hours of work

The weekly contract hours are based on a 38-hour week averaged over a twelve-month period with recognition that there will need to be a flexible approach to managing reasonable additional hours.

6. Probation period (minimum period of employment)

A six-month probationary period (in line with the Fair Work Act 'qualifying period' or minimum employment before being deemed a permanent employee).

7. Selection process

Applications for this position close Tuesday 6 October 2020.
